DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-2, and 5-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Watkin. Watkin shows a posture chair comprising: a frame (62) having a seat portion, a back portion (68) and a plurality of legs (70); a seat (14) operably attached to the seat portion; and a back (12) operably attached to the back portion, wherein the back is oriented with respect to the seat at an angle of between ninety and one hundred twenty degrees, and wherein the back has a deflection region proximate a lower edge thereof (see Fig. 1). The back has an edge (56) that extends around at least a portion of an outer side surface and a back surface of the back portion. Watkin shows the seat having thigh supports (44). The thigh supports are oriented at an angle of 3 degrees above and 10 degrees below the horizontal. The seat provides for a pelvis support plane, lying along a longitudinal center line of the seat (as shown in Fig 1). Watkin has disclosed that the seat shell could be used with other frame types i.e., garden, aircraft, folding, etc. It would have been obvious to one of ordinary skill in the art at the time of the invention to use the seat shell of Watkin on frame with a back portion having a top rail, in order to provide more structural support to the chair.

Allowable Subject Matter

3. Claims 3-4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
4. Claims 10-31 are allowed over the prior art made of record.

Response to Arguments

5. Applicant's arguments with respect to claims 1-9 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
